Mr. Ulayyet,

My name is Ed ;I am 81 yrs old and had been having problems getting bills from a medical billing firm that I should not have been getting.They started saying they would send them to a collection agency and started calling me at home.This really bothered my wife and myself.I met with your Mr.Woodrow Wilcox on Oct.11, at 3 o clock and what a pleasant surprise I got to watch and listen to such a professional gentleman work so relentless and hard to get to the proper person to correct those billing problems for us.He is truly an EXPERT in his field and we will always be grateful to him.

Sincerely,

A handwritten signature in cursive script that reads "Edmund".
